But Greathouse, president of the Metro East Sanitary District, won't be relaxing.

The Mississippi Ret week and the U.S. Army Corps of Engineers predicted Thursday it would crest Tuesday at 39.9 feet.

"I have to shut down the (Casino Queen) riverboat at 33.5 and start worrying it it goes to 37 or 33." Greathouse said.

"But nobody can early tell what that crazy riverboat at 35.5 and start worrying it it goes to 37 or 38." Greathouse said.

"But nobody can early tell what that crazy riverber now is gone by the time the water up north comes down."

Greathouse said the district has more than 5,000 sandbags filled and ready to go.

Some of those sandbags are being given to citizens and businesses, he seem.

"A tight budget means the district is always walking the razor's edge when it comes to emergencies, Greathouse said.
"If we go about and spend a lot of money and the river doesn't come up them everyone was we wasted the money." Greathouse said. "Which we would have, I guess.

In a report to Gov. Jim Edgar, a special lask force recommended ways to increase taken and the special lask force recommended ways to increase taken and use of fireworks.

them."

After months of meetings, 23 representa-tives from the Illinois departments of Reve-nue, Transportation and Public Health, the State Police, city and county law enforce-

ment organizations, firefighters, the medical community, public safety agencies and the fireworks industry agreed on the recommendations.

While most members agreed to keep the state ban on fireworks sales, industry representatives disagreed. They noted Illiniois residents can go to any neighboring state and buy fireworks. As a result, they said, the state loses millions of dollars in sales tax revenue.

FOR EXAMPLE, just across the Clark Bridge from Alton on Missouri Highway 367, Fireworks City opened Monday.

"They were buying as we were stocking. I'll pick up even more the closer it gets to the state of the state of the state of the state of the state only adults should light fireworks.

"Kids should sit back at a safe distance and watch. We also recommend using punks (a chemically treated smoldering stock) to light them because you don't have to put your hand as close to the fuse and you have

more time to get away." Boudria said.

Judy Roth, director of emergency services at Alton Memorial Hospital, said the hospital sees a lot of facial, leg and hand burns around the holiday. She echoed Bourdia's advige.

"If children are shooting (fireworks), they need parental supervision. Don't ever go back near a missfire and don't hold bottle rockets or Roman candles in your hand. Even sparklers are terribly hot," she said.

Even sparklers are terribly hot," she said.

Alton Fire Chief John Sowders said he not only sees damage to people but to property. "We don't recommend using fireworks at all but, if so, use legal ones and be sure an adult supervises. I can't tell you how many children get eye injuries and burns. People also don't pay attention to where the fireworks are landing. Each year we respond to to 20 minor grass fires and actual house fires. It's July and the grass is dry," Sowders said.

(By Robert Estill of Copley News Service)

Lynn Martin, a fornier Illinois congresswoman and U.S. Labor secretary in the Bush administration, has re-fueled rumors she may have an interest in rumning for president or vice president in 1996.

Triggering the speculation was her appearance June 7 as guest host on CNN's "Tarry King show." Ross Perot used an appearance as a guest on that television show to launch his independent presidential bid in 1992, but he never got to host the show.

Martin also reportedly is planning a trip to New Hampshire, site of the first presidential primary election.

Many other potential GOP candidates already have been there.

\$1.1 billion a year in agriculture research grants approved by Congress.

But Durbin said his information quest was not sparked by criticism of such grants by the "Porkbusters Coalition" headed by Rep. Harris F. As the new head of the House Appropriations Subcommittee that recommends agriculture spending, Durbin said he wants to be able to justify every single research program.

Organizations seeking research funds have been sent forms by Durbin requesting information about the total costs, the anticipated benefits and the uniqueness of the research.

"We don't want to be giving money one university simply because it is some congressman's alma mater," Durbin said.

IF YOU'RE A WOMAN OVER 35, AND HAVEN'T HAD A MAMMOGRAM, JUST THINK WHAT YOU COULD BE MISSING.

You could be missing the early stages of breast cancer. A lump so tiny, it would be impossible to feel. And everyone knows the importance of discovering any cancer early. That's why a mammogram is so

waluable in detecting many forms of breast cancer.

Why take the risk? For your own reassurance, call Memorial's Mammography Center at 233-7750, extension 5065, to find out more about about this cost-effective, life-saving exam.

You Can Help Provide These Dogs of Distinction with Pet Care for Less and Pro Plan®

NURSERY & CRAFTS

Where Beautiful Things Begin

uide dogs have been providing mobility or bilnd people for many years. We we all seen them in action and marveled at their accomplishments. To a visually impaired person, the loyal companion at their side is far more than an ordinary pet.

Did you know there are dogs that perform functions for those with different disa-bilities? They're known as assistance dogs, and their feats are equally impressive.

The Assistance Dog United Campaign (ADUC) is a new, national, non-profit organization dedicated to ensuring that healthy, well-trained assistance dogs are available for people with varying disabilities.

There are four categories of assistance dogs:

Service dogs perform daily Service dogs perform dany tasks for disabled persons such as retrieving dropped or needed items. These remarkable animals even "answer" the phone by picking up the receiver, bringing it to their master and hanging it up when the call is finished. Some are even capable of turning lights on and off, pushing elevator buttons and pulling wheelchairs.

Guide dogs, as mentioned earlier, become the "eyes" of individuals with visual im-pairments, alerting them to curbs, traffic and numerous other obstacles encountered in daily activities.

Hearing dogs respond to such sounds as doorbells, alarms, telephones, people's voices, smoke detectors and many other sounds. They, can even alert their hearing im-paired master to a baby's cry.

Social/therapy dogs give un-conditional love to develop-mentally disabled, those who need convalescent care, and confined persons. They also have become facilitators in speech and physical thera-pies. They make special visits to places like hospitals and nursing homes. ,

That's the good news. The bad news is that training and raising a qualified dog can

cost anywhere from \$4,000 to \$10,000 and the entire process can take years. Many applicants may wait from six months to three years for a suitable dog. The number of Americans with physical or mental disabilities is in the millions, but only about 10,000 are able to enjoy the quality of life an assistance dog can provide. Why? There simply aren't enough dogs to meet the demand.

ADUC is the only organiza-tion devoted to raising funds on a large-scale basis to help people obtain an assistance dog. 100% of their funds go to that effort.

To help provide these unique canines, Pro Plan[®] is pitching in to help ADUC in its endeavor. From July 4th through mid-September, for every bag of their pet food sold, Pro Plan[®] will donate \$1.00 to ADUC, up to \$250,000! These funds will provide assistance dogs for those individuals who desperately need their. perately need them.

Next time you're at Frank's, Next time you're at Frank's pick up some quality Pro Plan's foods, and you'll be doing a large part to help this worthwhile cause. Not only will you be providing you pet with top nutrition, you'll be helping a person in need to obtain a capable companion to provide love, support and many of the essentials of life that most of us take forgranted.

Triplets coast past Shells, 8-1 Winfield, offense lead Tri-City to tourney win

By Scott Wuerz Correspondent

Tri-City broke through for an 8-1 victory at home against Rox-ana on Friday night, winning its first game in the Granite City Round-Robin Tournament.

The game began as a pitchers' duel, but the Triplets were down Roxana and improved their season record to 15-2.

THE TRIPLETS scored three runs in the fifth inning and four more in the sixth and erased what had been an exceptional start from Roxana pitcher Brady Arview.

runs and helped Trt-City take a 6-1 lead:
Tri-City coach Jerry McKe-chan said the pair of victories over Alton might have been his team's most important games of camped near the top of Division 22 for most of the season and had beaten O'Fallon, a team most coaches thought would be the team to beat this season.

"AT 12-3, we're feeling pretty good about what we've accomplished this season," McKechan said, "We've hung in there in some tough ballgames and it has paid off for us by showing up in the standings.

"I think we're in good position now to compete for the division title if we' can continue to be consistent."

title if we' can continue to be consistent."

The losses knocked Alton's record'to 10-6 on the season.

McKechan said his team will have an opportunity to get some much-needed rest in the next week. The Junior Triplets will then have to crank the arms and bats back up for a stretch of 11 games in ten days.

"THE BOYS really deserve a chance to get away from base-ball for awhile and have some time to do the other things they like to do during the summer." McKechan said. "I'm glad for them to have a chance to relax them to the control of the control o

The Junior Triplets' success has been due largely in part to the versatility of the players, in addition to some hot bats, McKechan said.

chan said.

Tri-City has been led by catcher/outfielder Scott Nemeth, who homered in the second game Thursday and by John Greene, who used the series to extend his six-game hilting streak.

"The key to what we try to do is versatility," McKechan said: "When you have players who can pitch and play another post-tion or two, it gives me a change to keep the hot players in the lineup and to use a lot of pitchers."

ers.

"The fact that we can move pitchers around has also helped to keep our staff fresh and that, may be a factor when our schedule gets busy again."

Dear Dr. Rapoff,
I've heard that exercise
reduces stress, it that

reduces stress, it that true?

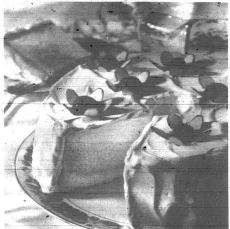

Dear J.T.,
Exercise definitely can reduce stress. Trafic, the job, the kids, the rushing, the worrying, — it's a faster pace today. Your nerve supply to vital organs may sufter as a result of stress causing you to feel ill and achy. Sensible exercise can help calm your nerves and relieve the tension that causes stress. The best activities to reduce stress are non-competitive walking, swimming, bicycling, golfing, etc.
Make tension-reducing exercise a regular part of, your lifety play for fun and enjoy the activity. Consult your health professional for an exercise program suitable for your lifestyle.
Finally always remember to gradually work into an exercise reguiren so that you reap the full benefits of the activity and you are not too-sore to continue the exercise.

At Memorial, we know the meaning of "Special Delivery"

Memorial Maternity Center announces the arrival of a special delivery to its comprehensive maternity services with the addition of Labor/Delivery/ Recovery (LDR) Suites.

Designed to make the birth of your baby truly a "Spealed Delivery," Memorial's LDR Sultes provide you with private, tastefully-decorated home-like rooms featuring comfortable furnishings each with its own private bathroom. All of the high-tech equipment needed for the safe delivery of your baby is readily available in your room but remains out of sight until it is needed, providing a more relaxed and pleasing environment.

Our family-centered approach has made Memorial one of the area's leading maternity services providers for over 30 years. Memorial offers classes to prepare you for the childbirth experience and for your role as a new parent. In addition, Memorial Maternity Center's team of registered nurses specialize in helping new parents learn about the care of their "Special Deliusus,"

HEEL PAIN?

If you are suffering from pain located at the bottom of the heel, you may have plantar fascilits.

Plantar fascilits refers to inflammation of a ligament that at-aches to the heel bone and tans out into the toes. The inflammation may be due to a variety of etiologies, almost all of which can be resolved through conservative treatments, if you have been putting up with this discomfort, feel-free to call the specialists of the Foot Health Centers.
